

| Aim High Cafe | Education Centre | Volunteer Application

Aim High Café is a non-profit social enterprise run by Aim High Charitable Trust. All our profits go towards the trust which offers educational programmes and vocational training to people with disabilities. The cafe aims to be a space of communication where people with disabilities can conveniently visit and meet the local community. Also, a place of education that provides opportunities for growth through vocational training.

| Volunteer Opportunities for People with Disabilities |

You can experience cafe work as a volunteer. The applicants or residential house managers choose days and times, and then they can join basic café work and baking preparation. The caregivers need to stay with them and our cafe staff support our volunteers.

| Volunteer Work is Available for Everyone |

You can donate your time or talent to help people with disabilities. Any help such as assisting FOH staff, sharing baking skills or helping education students all welcome. Please fill out the volunteer application form at the café and inform our staff.
